Acknowledgements

- A small cheer of thanks for all who have helped me in this journey of App Development – My parents, All mentors who have helped me and Group Members.

About Me..

- Student's Photograph

- Student's Introduction

Hello!

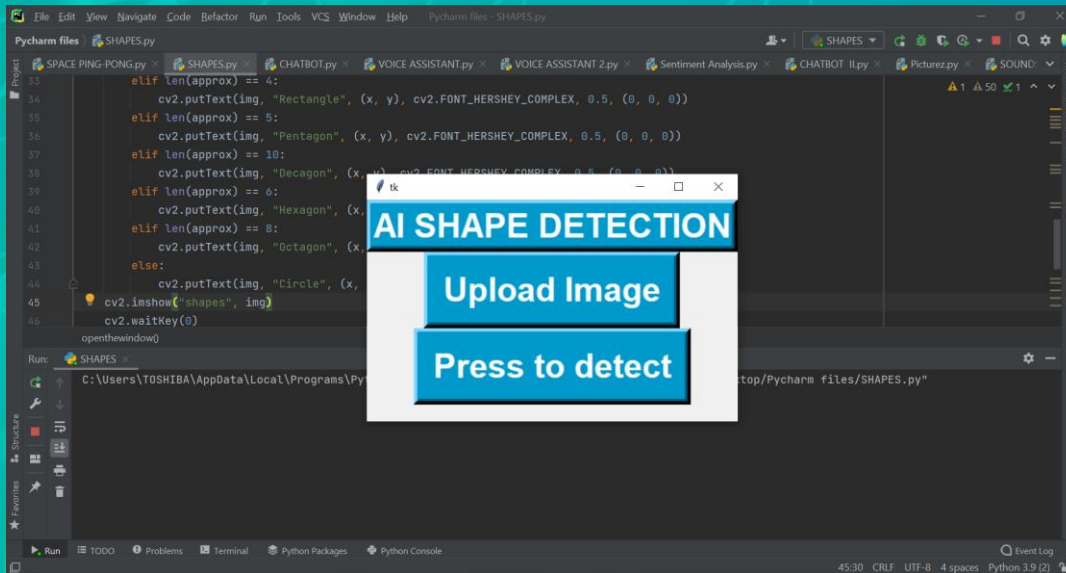

My name is Veer Shandilya.
I am 11 years old, and I go to a British curriculum school:
Dubai English Speaking College.
I have many interests such as coding, cricket, swimming, piano and Horse riding!
I am currently living in Dubai, UAE.

About My Internship Journey with Clevered..

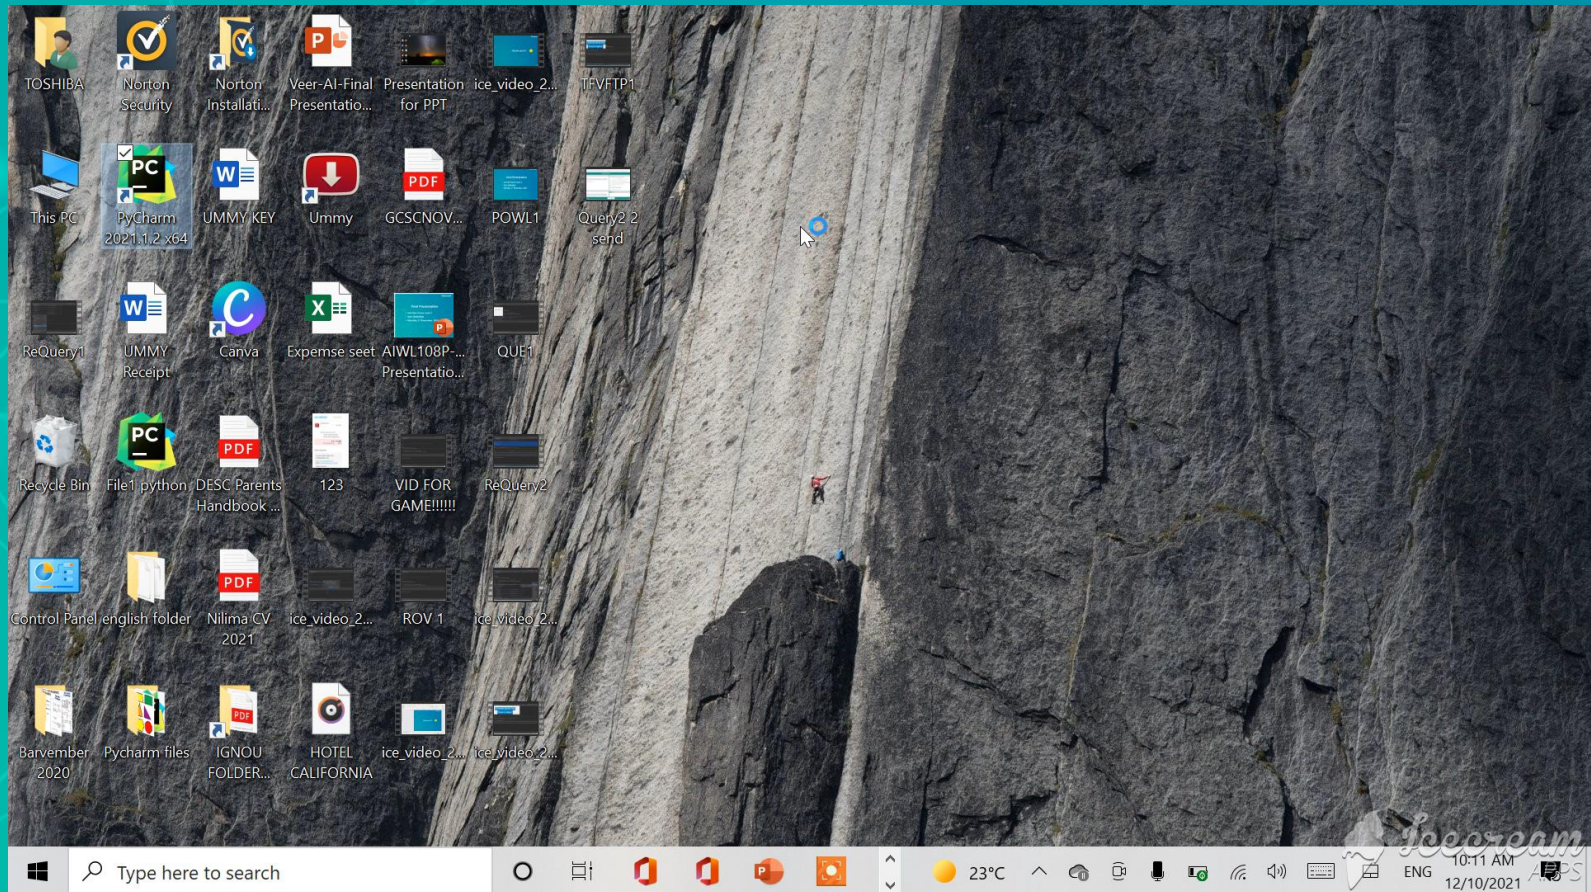

I am very grateful for learning with clevered and they have taught me a lot of new things based on code thank you to all who have helped me!

About App..

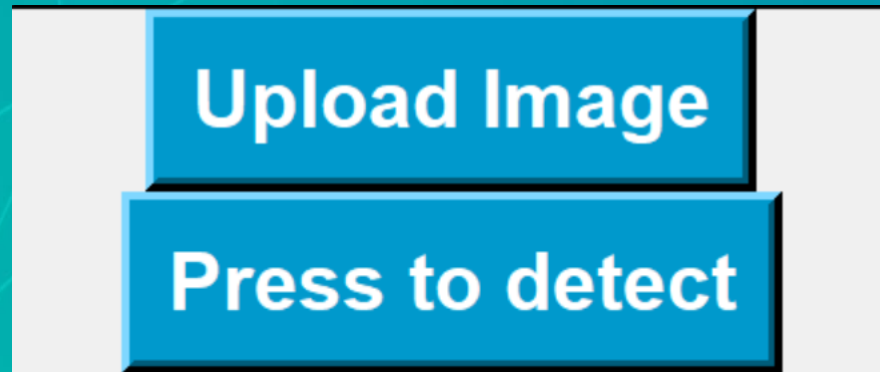

- App's Main Menu
- This is an app that detects shapes for you as well as its name!
- It can also detect any image of shape you put.

How do I use the App?

Detect AND upload button

- This button get the detection processing and tells you what to do in the start. You click it and then automatically the shapes get detected and the other window opens when button is clicked.
